Kerry	Bruce	Architecture & Construction, Arts, Audio/Video Technology & Communications	Interior Designer	Ohio Desk	I work as a Project Designer (interior design) where I meet with clients to determine their furniture and space-planning needs in the workplace. This includes office settings, schools, universities, healthcare facilities, and more. Ohio Desk is a furniture dealership that has been in business more than 100 years. My Bachelors degree is in Interior Design (2011 grad of Mercyhurst University) and I minored in Sustainability Studies. Upon graduating I initially worked on the residential side of the business and did so for 8 years before working at Ohio Desk. I have the unique perspective of working on both sides of the design industry (residential & commercial), and have a decade worth of both Sales roles and Interior Design role experience. My current design role entails: using my knowledge of building code requirements, drawing computer-aided floor plans, creating realistic renderings in the same computer program that video game developers use, selecting furniture finishes or "picking colors" with clients on complex projects, obtaining quotes from vendors, and working with internal team of Project Managers and installers. There is so much involved in the Interiors industry than one may think!
Hannah	Floyd	Arts	Photographer	Shiny Penny Studios	
Curtis	Danburg	Arts, Audio/Video Technology & Communications	VP, Communications and Community Impact	Cleveland Guardians	Career opportunities in the sports industry.
